PATENT
Attorney Docket No.: SCRIP1100

In the Specification

Please note that the title of the application was amended in the response to Final Office action mailed June 29, 2000, submitted to the USPTO on December 28, 2000, and in a Preliminary Amendment mailed with a request for Continued Prosecution Application, submitted April 26, 2001.

In the application title, [DISORDERS] was changed to DIABETES. The resultant title is --COMPOSITIONS AND METHODS FOR THE TREATMENT OR PREVENTION OF AUTOIMMUNE DIABETES--. Please ensure that this amended title, including the words OR PREVENTION, are included when a patent based on this application issues.
